

# Plecs CoderTargets setup

\*This only needs to be done the first time the user logs into the computer.

Open Plecs,

Click on File – Preferences

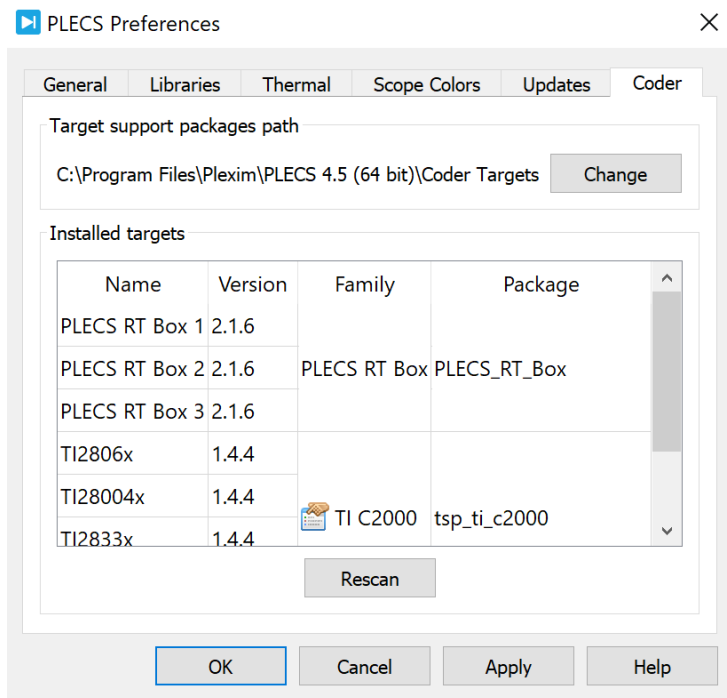

Scroll to the right and look for the “Coder” Tab

Change target support path to

C:\Program Files\Plexim\PLECS 4.5 (64 bit)\Coder Targets

The Plecs and TI boxes should populate like below.

Click on the yellow exclamation point and add these directories

TI Codegen tools directory: C:\ti\aux files c2000\cgt\ti-cgt-c2000\_18.12.8.LTS

TI Uniflash directory: C:\ti\uniflash\_6.4.0

# Plecs CoderTargets setup

 Edit target family settings?✕
